About me

Located: Valby, Cph.

Languages: Danish & English

Nationality: Danish

Date of birth: 1999-12-29

Projects

- 1 Using **MongoDB, Express, Bootstrap, Node.js** I Co-created a website to help reduce the user's carbon footprint through the usage of **APIs**, forecasting algorithms, and an account-specific recommendation system.
- 2 Using **C**, I created a filtering system helping the user decide which parts of a CV should be included.
- 3 Combined with **digital electronics**, I programmed an **Arduino** in **C** to create a clock that gave personalized compliments, while indicating how hot it is.
- 4 Using **C#** and the **Unity** game engine, I created an iPhone game to help kids in elementary school learn math in a fun way.
